At what point does the "Biden Crime Spree", otherwise known as his "campaign" become a criminal matter?
There was no campaigning, daily lids, no questions, only the bare minimum to keep up appearances.
I'm not a lawyer, to my mind Biden, and the Dems, did Not run a

candidate at all. Since they never intended to run an honest campaign, and their entire focus was on stealing and manipulating, I honestly feel that Donald Trump ran UNOPPOSED in this election and is the clear winner for many reasons.

There was only One person campaigning this election for President, the other person planned a crime.

There are laws that prevent criminals from "profiting" from their crimes. Serial killers can't write books and keep the money for example.
I was close enough to these people to lay out their criminal plans months ago.

I'm not psychic, I can move around their "sphere of influence" for many reasons which will be out soon. So, I knew what they were planning and it was entirely criminal. One person works hard, saves money, invests, and becomes wealthy. Another person robs a bank

hurting businesses and people, invests that money, and becomes wealthy. Should they benefit from their entirely criminal scheme?
That's what Biden is doing, with the constant help of the MSM and social media.
Now he is trying to legitimize his Stolen position by speaking

to world leaders, after PERSONALLY PROSECUTING GENERAL FLYNN FOR THE SAME THING, an Imagined Logan act violation.
The thief who robbed the bank, invested, and got rich, is now trying to donate money and "look good" to cover his original crime.

There was no legitimate and legal campaign from the Democrats and Biden. They filed all of their paperwork to run for president, in every state, under false pretenses.
The constant media questions to president Donald Trump about "accepting the results" and "will you leave the

White House", clearly demonstrate this setup and their involvement.
There must be something in the paperwork they filed to run in every state about illegal activity, intention, something. If someone goes over that paperwork, someone with a much better legal mind than I have.

I believe they can find a legal reason why Joe Biden should be removed from the ballot in every state or at least in those states where the fraud is known and proven. Meaning, Donald Trump ran unopposed in those states, there is no contest and they must be awarded to him.🙏🙏🙏

Everyone is arguing 50 different ways of why this ballot or that ballot is fake or incorrect. This one was cured, that one is a duplicate, one was a mail in and they voted in person, one was corrected, one was completely forged, and on and on and on.
They are ALL illegal.

There are myriad different ways to counterfeit Currency. Print one yourself, hand draw one, copy machine, altar and existing bill, and on and on . But each and every single one of them is counterfeit and illegal. And they do not count in any way.

They need to stop arguing over each individual ballot and how each individual ballot is fake this way or that way. Fake is fake, therefore illegal and cannot be counted.

If this BS fraud is allowed to stand in any way shape or form, then the next presidential election will be won by anyone with a Xerox machine who can print out 5 million votes in every state.🙏

12/ One of the best things out of @ericries's Lean Startup is the concept of "vanity metrics" - unimportant, inflated metrics that don't have much to do with business value. But the effects of using them are different when you're a startup versus a big co.

13/ For big, established companies, focusing on vanity metrics is silly but not harmful. Everyone's thrown up a huge number to celebrate for an offsite. I get it. But for startups who are pre-product/market fit, it can lead down a path towards

Everyone is focused and wondering about Scytl and the raid that took place in Germany. Let's look a little closer to home shall we? I'd like you to meet Marc Fratello. The Deal Maker.

Mr. Fratello runs Scytl out of Tampa Florida, with its other US base in Baltimore Maryland. Real close to home for me, you'll see just how close soon.

Mr. Fratello has a long history with the Bush family. I believe

I'm hearing that Biden knows he didn't win and he's pissed that "they went to far, they didn't Nuance' the votes, they panicked and went overboard with their fraud." He's being pushed into the "Pres Elect" role, and it's already bit them in the ass with McCabe being

Fully exposed. Kamala is running the show now, pushing constantly. While joe is pissed it's all going to be dumped in his lap when Trump is confirmed. They are all guilty, they are already mentally positioning themselves to manage the

I have been working with several groups over the past few months, especially over the last few weeks, trying to protect the election or document and brace ourselves for what could happen. These groups encompass people from every level and many departments of government

They have very kindly listened to and poured over everything I provided as well as vetting me along the way. We have had very serious discussions especially after this last week and what occurred, and is occurring, as a result of the 2020

And porn sites. There was access through the USPS. One odd thing. Dominion WAS NOT HACKED as far as I can tell now. They had access to it already, they just approached it from multiple directions to hide their activity. These weren't"glitches"🤔🤔
